

Lochinver House School

Site Address	Heath Road, Potters Bar, Hertfordshire
Facility	Synthetic Sports Pitch / Cricket Outfield
Pitch System	<ul style="list-style-type: none"> • Unbound base • Sand Envelope System[®] performance control layer • VHAF[®] NottsSward sand-filled synthetic grass
Other Features	<ul style="list-style-type: none"> • Tarmac surfaced mowing margins • 3m high Rolled welded mesh fencing • State of the Art roll down cricket mats, designed for use on synthetic sports pitches
Built	October 2009
Sporting applications	<ul style="list-style-type: none"> ✓ Small side football ✓ Hockey ✓ Tennis ✓ Netball ✓ General Ball Games ✓ General Aerobic Activities
Points of Interest	The footprint developed was a large grass junior cricket outfield and, therefore, irregularly shaped. The School required use as a training outfield & the presence of two mature oak trees with protection orders, meant the design had to be sympathetic to the existing features and still offer a Multi Use sport performance for curriculum & coaching for hockey, football & tennis.
